## FINAL REPORT

Tri Beta Research Scholarship Foundation. Policy Change approved by the Tri Beta Executive Council, Jan. 24th, 2003: REVISED

Beginning 2003, a **"Final Report"** will no longer be required from recipients of the undergraduate "Tri Beta Research Scholarship Foundation Grants". The research should be abstracted and presented, with funding acknowledgement, at a Tri Beta District/ Regional Convention and/or National Convention. The abstract must be submitted to the Convention Coordinators for documentation and program listing. The District Directors/Regional Vice Presidents will forward these abstracts to the editor of BIOS for inclusion in the convention news section.

If the grant recipient is unable to present their research at a Tri Beta convention the student may submit a written request seeking permission from their Regional Vice President to present their research at an alternate scientific meeting considered appropriate for undergraduate research. If the Regional Vice President grants this request the research to be presented **must be abstracted**, according to the BIOS format. **Copies of the abstract and the meetings program, including a listing of the student's paper, must be forwarded to their Regional Vice President.** In the event a student is unable to make a formal presentation of their research at a Tri Beta convention or an alternate approved meeting, then a manuscript following the "Instruction to Authors" style in BIOS should be submitted to BIOS for publication. Copies of this submission must be submitted to the Regional Vice President. In the event a student is unable to make a formal presentation of their research, the student must request permission to submit a FINAL REPORT to the Regional Vice President.
